Color Chip Program

TCI COLOR CHIP SELECTOR PROGRAM

Selecting the best colors for a project often entails tapping into your creative side and experimenting with the many possibilities available to find the ideal color palette, a task made much more difficult if you don't have the necessary samples to conduct an accurate research.

Color cards and images on websites can offer a good representation of general color, but they can't perfectly replicate the value and tone of the color once the powder is applied to a metal substrate. While providing powder coating samples on request is a viable solution for accurate color matching, preparing and shipping the samples requires additional time that risks putting your project behind schedule.

Our Color Chip Selector Program resolves these challenges by supplying you with 2"x3" chips coated in more than 400 of our most popular colors from our extensive portfolio of powder coatings, allowing you to freely explore your creativity. All the chips are created according to our quality control process to ensure the powders are applied at the recommended film build and meet our quality appearance specifications before being placed into inventory and released for shipment.

To further enhance the usability of the Color Chip Selector, we offer a wall-mounted display system so you can quickly and easily access your chips.

Contact TCI Powder Coatings' Chip Program at tcichip@tcpowder.com or call 800.533.9067 for more information.

TCI Powder Coatings
300 Martin Marietta Drive

TCI CHIP PROGRAM FEATURES AND BENEFITS

- Display 400+ of the most popular colors from TCI's extensive portfolio of powder coatings
- All color chips are available on demand reducing any unnecessary time ordering and spraying samples
- Wall-mounted color selector available for easy display
- All color chips go through a quality control process prior to being placed into inventory
- Order all chips to display on your wall-mount or order as little as one at a time on demand
- Chips will be mailed directly to you or to your customer if requested

TCI CHIP PROGRAM FEATURES AND BENEFITS

There is a maximum of (3) chips per color and a maximum of 10 different chip (colors) per individual order for existing TCI customers.
New customers, please contact our inside sales department at (302) 602-8731. There will be a \$25.00 processing fee for panel orders.
